

AUDIO ENGINEER, LONDON KNIGHTS PART TIME, CONTRACT

The London Knights Hockey Club is seeking an outgoing and energetic individual to fill the part-time contract Audio Engineer position. We are looking for someone with an upbeat personality with a passion for music and hockey. You must be able to work all London Knights home games.

KEY AREAS OF RESPONSIBILITY

You will be in charge of editing and finding music that best represents the London Knights and their season.

ESSENTIAL DUTIES AND RESPONSIBILITIES

- Create engaging and detailed sound design for various elements of the game including power plays, penalty kills and game wins
- Have the ability to mix songs and create unique goal songs with quick turnaround
- Implement sound design and other audio into the game
- Record, design, and edit voices and voice overs for use in our games
- Find current and engaging songs that represent the Knights
- Have the ability to synchronize audio with visual images
- Other duties may be included

QUALIFICATIONS/REQUIREMENTS

- Must have a Post-Secondary diploma or certificate in Sound Engineering or a related field
- Minimum 2-3 years experience working in an Audio Engineering or related position
- Must have knowledge of the London Knights and the franchise
- Must be knowledgeable about complex electrical equipment such as soundboards, equalizers, microphones, etc.
- Ability to work extended and/or irregular hours including evenings, weekends and/or holidays
- Strong creative vision
- Demonstrates superior attention to detail
- Ability to manage multiple projects simultaneously with competing deadlines
- Posses excellent communication skills
- Proficient with computers
